cultivating leadership

VISION

Cultivating leaders

MISSION

We inspire and challenge students toward academic, athletic and artistic excellence, instill personal integrity through biblical values and equip students to pursue lives of distinction in service to society.

PHILOSOPHY

We seek to provide excellence in education in an atmosphere conducive to the intellectual, cultural, social, spiritual and physical development of our students. The school recognizes the needs of our times and accepts the challenge to develop each student's potential to the greatest extent possible.

We strive to be a school where learning and character are nourished; where teachers and students are valued as individuals; where differences are respected and talents are nurtured; where success and honest effort are recognized and failures become instructive; where judgments are tempered with compassion and achievements with humility; where privilege accepts responsibility; where education is not an end in itself, but a means to the individual's fulfillment as a contributing member of the world community.

COMMITMENT TO LEADERSHIP

Respect and understanding of differences are necessary parts of preparation for life in today's complex world. To achieve the broader educational goal of preparing students to participate in the world community, Prep is committed to diversity in race, color and national or ethnic origin in the student body, faculty and programs.
